Bakgård Furniture Group

Design Jonas Bohlin

Bakgård furniture series is stylish and clear in its graphic expression. Available in two different sizes.

Bakgård has been approved in [Svanens Husportal](#) and is environmentally assessed via [Byggvarubedomningen](#) and [SundaHus](#).

Can be treated with Protega Novatherm fire protection, which is a waterborne fire protection paint, for products which, for example, will be placed in connection with escape routes and entrances.

WOOD AND FINISH

IPE for ipé.

LIN for linax impregnated pine.

Cover-glazed stand:

S for Black: NCS 9000-N

R for Oxide Red: NCS S 5040-Y80R

G for Olive Green: NCS S 8010-G70Y

VARIANTS

Can be treated with fire protection, at additional cost.

For fire protection treatment contact Nola.

Standard colours

NCS S 9000-N

NCS S 5040-Y80R

NCS S 8010-G70Y

Materials and surface treatments

The furniture is made from oiled pine or oiled ipé.

Pine

Nola's pine is of high quality and comes from sustainable forestry. Pine is an environmentally friendly, domestically produced material. Damaged or untreated pine is quite easily attacked by decomposition processes; therefore, it is particularly important to repair damaged surfaces.

Ipé

Our FCS-marked Ipé is an extremely hard wood thanks to its high density. The hardness gives remarkably high physical durability and resistant to the effects of sun, rain, and other weather over decades.

Wood oil

Wood oil provides good protection against the stresses of the outdoor climate and at the same time highlights the wood's natural appearance and properties.

Linax

After traditional impregnation according to NTR AB, the wood is boiled in a hot linseed oil with or without color pigments under vacuum. The oil is penetrated into the surface on all six sides, which reduces moisture absorption in the wood and gives a dimensionally stable product over time. The result is a dried product with good resistance to rot that also has long maintenance intervals. Linax-impregnated furniture is intended for outdoor environments only.

Assembly and placement

Freestanding

Freestanding product that is placed directly on the ground.

Some assembly required.

Maintenance

Ipé

Ipé has a durability of up to 40 years if it is not treated with more than normal care. With regular oiling once a season with wood oil, the durability is up to 100 years. Untreated Ipé will turn from reddish brown to a more silver gray color over time. If you want to keep the brown color, it must be treated and maintained with wood oil.

Linax impregnated pine

Linax is a linseed oil-based impregnation that provides extra long durability in outdoor environments and corresponds to impregnation class AB. The impregnated wood turns gray over time, which means that it should be re-oiled if necessary. Use a linseed-based oil for impregnated materials.

Versions

Available in lengths of 175 cm and 300 cm.

Character

An efficient furniture group comprising a table and bench that highlight the beauty of natural wood grain.

Jonas Bohlin

Jonas Bohlin, född 1953, är inredningsarkitekt och formgivare och verkar i allt från möbler, armaturer, glas och textil, till konstföremål och installationer. Bohlin blev uppmärksammad för sin stol Concrete, under tidigt åttio-tal, som startade en diskussion om gränsdragningen mellan konst, konsthantverk och bruksvara. I decennier har han fört den svenska designtraditionen framåt och med sitt tydliga formspråk blivit en av landets främsta möbelformgivare. Bohlin var professor på Konstfack i Stockholm 2004-09. För Nola har Bohlin ritat ett flertal uppmärksammade möbler.
