## Kaskad Armchair

Design Björn Dahlström

The award-winning Kaskad armchair was inspired by the movement of water surging over rapids. Crafted from ribbons of curved steel attached to a contouring frame, the chair's fluid form and flowing lines recalls shapes commonly used in contemporary art more than in industrial design. The Armchair is maintenance-free, ergonomic and stackable. The armchair, which was launched by Nola in 2011, has been awarded over the years with prizes such as the Swedish Design S Award and the Red Dot Design Award Winner.

### CERTIFICATION

#### Dimensions and weight

Width: 70 cm  
 Height: 88 cm  
 Sitting height: 43,5 cm  
 Depth: 77,5 cm  
 Vikt: 12,5 kg

#### Individual dimensions

Bent steel wire: Ø 8 and Ø 12 mm

#### Product numbers and combinations

**U11-82** Kaskad armchair, powder-coated in fine structure paint, fitted with floor protectors  
**U11-84** Kaskad seat cushion for armchair in black  
**B11-06** Startup cost for powder coating steel in a color other than standard  
**U11-86** Stainless steel fasteners, powder-coated

#### Append to product number

##### METAL SURFACE FINISH

Powder coated in fine structure.

S for black RAL 9005.

V for white RAL 9010.

G for yellow RAL 1016.

C for any color of steel, at an additional cost.

#### Standard colours

■ RAL 9005  
 □ RAL 9010  
 ■ RAL 1016

#### Materials and surface treatments

##### Steel

Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.

##### Electrogalvanized

Electrogalvanizing (also known as zinc plating) provides corrosion protection through the sacrifice of zinc ions. It is created via a zinc coating on the steel using an electric current.

#### **Powder coating**

Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.

#### **Assembly and placement**

##### **Freestanding**

Freestanding product that is placed directly on the ground.

Fully assembled.

#### **Maintenance**

##### **Powdercoated steel**

Products that are powder-coated can be touch-up painted with alkyd paint.

[Read more in our general maintenance advice at nola.se/en/care-and-maintenance](https://nola.se/en/care-and-maintenance)

#### **Versions**

Available in standard colours black RAL 9005, white RAL 9010 and yellow RAL 1016.

#### **Character**

Crafted from ribbons of curved steel attached to a contouring frame, the Kaskad armchair captures the movement of water surging over rapids.

#### **Designers**

---

##### **Björn Dahlström**

Björn Dahlström is a Swedish designer and industrial designer. He started his company in 1982 concentrating on graphic design for big Swedish clients. Today he is a well established designer with a wide range of products such as furniture, bicycles, carpets, cookware and toys.

Dahlström has received a number of Awards and prizes during the years, both nationally and internationally, including several Excellent Swedish Design (Utökert Svensk Form / Design S), Design Plus Prize and Red Dot Design Award. He is represented in various museums around the world, including the national Museum for Art, Architecture and Design in Oslo, The Museum of Design & Craft (The Röhsska Museum) in Gothenburg and Victoria & Albert Museum in London.

Dahlström has been a professor at the University of Arts (Konstfack), and taught at Beckmans School of Design in Stockholm. Björn Dahlström lives and works in Stockholm, Sweden.
