Work Desk Desk

Design SuperLab & Charlotte Petersson Troije

Work Desk is designed to work in many different environments. Companies' court yards and roof terraces, in parks or between buildings in the public environment. The desks are available in two different heights and also includes raised back and sides for privacy. Work Desk is developed in collaboration with Superlab and Charlotte Petersson Troje.

CERTIFICATION

Dimensions and weight

Width: 110 cm
Height: 120 cm
Depth: 68 cm

Product numbers and combinations

U19-25T Work Desk, sitting height
U05-25T/STÅ Work Desk, standing height

Append to product number

METAL SURFACE FINISH

C for any color other than standard, starting cost is added.
(Powder-coated steel only).

INSTALLATION TYPE

N for surface mount.

Standard colours

 RAL 6034

Materials and surface treatments

Pulverlack satin glans 30 satin.

Steel

Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.

Electrogalvanized

Electrogalvanizing (also known as zinc plating) provides corrosion protection through the sacrifice of zinc ions. It is created via a zinc coating on the steel using an electric current.

Powder coating

Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.

Compact laminate

Compact laminate is a sheet material made of kraft paper and phenolic resins, pressed together under heat and extreme pressure. The material is completely water resistant.

Assembly and placement

Freestanding

Freestanding product that is placed directly on the ground.

Surface mount

Can be bolted above ground, to the floor or to a cast-in-place foundation. Bolts not included.

Levereras monterad.

Maintenance**Powdercoated steel**

Products that are powder-coated can be touch-up painted with alkyd paint.

Compact laminate

Compact laminate is very a strong and heavy material. It does not normally require maintenance.

Versions

Skrivbord för skrivbordsstol alternativt ståhöjd.

Designers

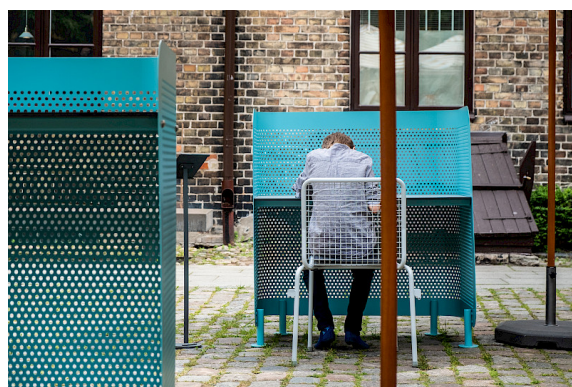

SuperLab

Superlab the company was founded in 2014 as an experimental design laboratory with the main goal to study the future workplace and the furniture design of tomorrow.

**Charlotte Petersson Troije**

Charlotte Petterson Troije is a research student in Urban studies from Malmö University. Petersson Troije has since 2010 focused her research on how to combine urban green areas with the daily life of workers. This resulted in the project “Stick ut Malmö” in 2017, where Petersson Troije presented research regarding the different requirements and needs that are necessary to work outdoors. Working outside can result in an increase in energy and inspiration, less stress and greater conversations.
