Basket Litterbin

Design Thomas Andersson

This striking litterbin is a contemporary alternative to the traditional woven wastepaper basket. Strips of cane are replaced with sleek metal spines, creating an efficient outdoor design. The Basket litterbin combines function and form in a cylindrical container and a basket-like protective outer casing. Its wide mouth makes it an easy target for waste items, which disappear into the container underneath.

Dimensions and weight

Height: 90 cm

Ø: 82 cm

Weight of concrete base: 47 kg

Volume: 80 L

Individual dimensions

The steel pipe in the top ring: 25 mm x 25 mm

The spines on the sides have a diameter of Ø 10 mm

The bands that hold the spines in place are made from flat steel: 60 mm x 6 mm.

The rim is 1 mm thick

Product numbers and combinations

Ö30-80 Markfast.

Ö30-83 Med krysstativ. Fastsättningsbar.

Ö30-84 Med betongsockel. Fristående.

B11-06 Startkostnad valfri färg.

Append to product number

METAL SURFACE FINISH

C for any color of steel, at an additional cost.

VARIANTS

P for flat steel.

INSTALLATION TYPE

M for in-ground.

N for surface mount.

Standard colours

RAL 9005

Materials and surface treatments

Steel

Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.

Powder coating

Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.

Assembly and placement

Freestanding

Freestanding product that is placed directly on the ground.

In-ground

Cast in ground.

Surface mount

Can be bolted above ground, to the floor or to a cast-in-place foundation. Bolts not included.

Delivered in parts for assembly on site.

Maintenance

Powdercoated steel

Products that are electro-galvanized and powder-coated can be touch-up painted with alkyd paint.

Versions

Available in two versions: Round steel \varnothing 10 mm or flat steel 60 x 6 mm.

You can choose between three options for attachment: Basket with two support legs that are cast into the ground, with a cross stand for mounting above the ground or floor or Basket with a concrete plinth.

Character

This efficient outdoor litterbin is constructed with a basket-like protective outer casing.
