Bollnäs chair

Design Thomas Bernstrand

Bollnäs chair is a classically designed series of chairs that are part of the furniture series Bollnäs. The series was originally designed for Brotorget in Bollnäs, hence the name. Made with a heavy metal undercut and with seat and back washers made of sturdy pine wooden ribs, the furniture is both stable and durable to last over time. At the base of the chairs there are attached loops to easily and discreetly mount the feet in the surface.

Dimensions and weight

Chair

Width: 51 cm

Depth: 49 cm

Height: 81 cm

Seat height: 46 cm

Armrest height: 64 cm

Armchair

Width: 60 cm

Depth: 60 cm

Height: 71 cm

Seat height: 40 cm

Armrest height: 57 cm

Child chair

Width: 27 cm

Depth: 33 cm

Height: 54 cm

Seat height: 30 cm

B11-06 Startup cost for powder coating steel in a color other than standard.

Choose a RAL colour.

Append to product number

WOOD AND FINISH

LIN for linax impregnated pine.

METAL SURFACE FINISH

RAL 1023 for powder coated steel (yellow)

RAL 2002 for powder coated steel (red)

Gris 2900 Sablé for powder coated steel (grey)

C for any color other than standard, starting cost is added.

Standard colours

RAL 2002

RAL 1023

Materials and surface treatments

Glulam.

Steel

Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.

Electrogalvanized

Electrogalvanizing (also known as zinc plating) provides corrosion protection through the sacrifice of zinc ions. It is created via a zinc coating on the steel using an electric current.

Powder coating

Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.

Linax

Linax is a linseed oil-based impregnation that provides extra long durability in outdoor environments and corresponds to impregnation class AB. The impregnated wood turns gray over time, which means that it should be re-oiled if necessary. Use a linseed-based oil for impregnated materials.

After traditional impregnation according to NTR AB, the wood is boiled in a hot linseed oil with or without color pigments under vacuum. The oil is penetrated into the surface on all six sides, which reduces moisture absorption in the wood and gives a dimensionally stable product over time. The result is a dried product with good resistance to rot that also has long maintenance intervals. Linax-impregnated furniture is intended for outdoor environments only.

Maintenance

Använd en matt klarlack för sits och rygg i formpressat limträ.
Finstruktur SK 1. Pulverlack går att beställa på sprayflaska

Powdercoated steel

Products that are powder-coated can be touch-up painted with alkyd paint.

Linax impregnated pine

Outdoor furniture requires oiling every 5 years and panel products and roofs require oiling every 12 years. Maintenance should be done with linseed oil varnish. It is important that the wood is clean and dry (max. 20% moisture content) before it is finished with oil. When washing, do not use high-pressure cleaners. Washing should be done with lukewarm water and then rinsed off with a water hose at normal pressure. Strong grease-dissolving agents should not be used, but washing should be done with a mild household detergent. Detergents containing bleach should also not be used.

The oil can be applied with a roller or brush. Too much oil can cause growth on the wood and give a sticky surface. Attacks by growth can also occur if the wood has not been sufficiently dry or cleaned before the oil is applied. Growth does not

damage the wood and is relatively easy to remove, but has a tendency to return.

Versions

The furniture group consists of an armchair, an easy chair, a chair, a table and a child's chair with a child seat.

Examples

Squares, parks, school yards, shopping centers and public places.

Character

Classically-proportioned furniture group even for small children.

Designers

Thomas Bernstrand

Designer Thomas Bernstrand, who owns his own design studio in Stockholm, has participated in a large number of design and art exhibitions around the world such as MoMA in New York, Colette in Paris, Biennale Design Saint-Etienne and others.

Bernstrand has received several awards for his work, including Excellent Swedish Form and Winner of the Good Design Award 2012 for Nolastolen Share. For Nola, Bernstrand has designed a large number of products and furniture series and participated in a number of special projects over the years.
