

Cacti Furniture series

Design Anki Gneib

The Cacti furniture series includes planters and are complemented by hanging baskets and a bird feeder. They hook together to form a sequence of interlocking designs. The bird feeder is supported by a post or available as hanging design. Whether filling a space with contemporary products or making a nod to nature, the Cacti designs are natural complements to the surroundings.

CERTIFICATION

Dimensions and weight

RAL 160 70 10

RAL 9004

RAL 9010

RAL 1003

Materials and surface treatments

Steel

Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.

Powder coating

Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.

Assembly and placement

Freestanding

Freestanding product that is placed directly on the ground.

Pre-assembled.

The hanging baskets are designed to be suspended from above by wire. Please note that wire is not included. The bird feeder table is free standing.

Maintenance

Powdercoated steel

Products that are powder-coated can be touch-up painted with alkyd paint.

[Read more in our general maintenance advice at nola.se/en/care-and-maintenance](https://nola.se/en/care-and-maintenance)

Versions

The wire hanging baskets are available in three different sizes for indoor use. The hanging bird feeder and the free-standing bird feeder table are made for outdoor use.

Character

This group of wire hanging baskets hook together to form a flexible series of interlocking designs. The hanging baskets are complemented by a bird feeder.

Designers

Anki Gneib

Anki Gneib has an education in Interior Architecture and Furniture Design at the University College of Art, Crafts and Design in Stockholm. In her studio, she works creatively with a wide range of projects such as residential architecture, interior design for commercial spaces with a focus on facility branding as well as furniture, lighting and product design. Her work is characterized by experimental and playful expressions through both process and results.
