Frame Litterbin

Design Broberg & Ridderstråle

The Frame litterbin has a modern design. The litterbin's sides taper inwards and upwards from the base, meeting the upper rim at the inner edge. The litterbin can be ordered with an ashtray integrated into the top. Frame is available in two sizes, 120 litres or 240 litres. Made with functionality in mind, the litterbin corresponds to the Frame planters.

CERTIFICATION

Dimensions and weight

A for ashtray to Frame litterbin 120 liters.

BR for tray holder to Frame litterbin 120 liters.

K for Bird deterrent (set of 5 chains).

Standard colours

Noir 2200 Sablé

Materials and surface treatments

Steel

Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.

Powder coating

Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.

Electrogalvanized

Electrogalvanizing (also known as zinc plating) provides corrosion protection through the sacrifice of zinc ions. It is created via a zinc coating on the steel using an electric current.

Assembly and placement

The scarecrow is mounted inside the ceiling in front of the opening and consists of 5 pcs 150 mm black chains.

Both the scarecrow, tray holder and ashtray must be ordered in connection with ordering the litterbin.

Freestanding but can be fixed to the ground, see Assembly instructions.

Maintenance

Powdercoated steel

Products that are powder-coated can be touch-up painted with alkyd paint.

Designers

Broberg & Ridderstråle

Stockholm based Broberg & Ridderstråle Design & Architecture is founded and run by Mats Broberg and Johan Ridderstråle. The duo met at the University College of Arts, Crafts and Design (Konstfack) where they both studied furniture and interior design. Today they work within the fields of architecture and design. Their design method is based on the traditional craft, where they often gather inspiration from their daily lives only to then add a new twist to the design that lifts the product to a new level. Broberg & Ridderstråle have throughout the years designed numerous products and furniture series for Nola.
