Gro Planter and Frame

Design Mia Cullin

The Gro planter belongs to a family of complementary designs. This round planter contains a radial framework designed to accommodate all types of flower arrangements. The integral framework provides support for stems, stalks, robust greenery and small branches. Available in two sizes, the planters can be paired with other Gro designs, or used on their own.

Dimensions and weight

Height: 60 cm Ø: 100 cm Weight 80 kg

Volume: 165 L

Product numbers and combinations

Ö16-08VAS Gro round planter with horizontal trellis

Ö16-08VAS/1 Gro round planter with horizontal trellis with rubber liner for

indoor areas

B11-06 Additional fee for choosing a non-standard colour

METAL SURFACE FINISH

C for any color other than standard, starting cost is added.

Standard colours

Materials and surface treatments

RAL 3007 finstruktur.

Steel

Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.

Electrogalvanized

Electrogalvanizing (also known as zinc plating) provides corrosion protection through the sacrifice of zinc ions. It is created via a zinc coating on the steel using an electric current.

Powder coating

Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.

Assembly and placement

Freestanding

Freestanding product that is placed directly on the ground.

Mounted on site.

Maintenance

Powdercoated steel

Products that are powder-coated can be touch-up painted with alkyd paint.

Read more in our general maintenance advice at nola.se/en/care-and-maintenance

Versions

 $\ensuremath{\mathtt{A}}$ rubber liner for the planter can be ordered separately.

Character

Round planter containing a radial framework designed to accommodate all types of flower arrangements.
