Kaskad Table

Design Björn Dahlström

Inspired by raging rivers breaking over rocks, the Kaskad furniture group captures the movement of water surging over rapids. Crafted from ribbons of curved steel, the table's flowing lines articulate the shapes of contemporary art more than they speak the language of industrial design. The table belongs to the Kaskad furniture group, which includes a chair and an armchair.

CERTIFICATION

Dimensions and weight

Height: 71 cm
 Ø: 60 cm och 80 cm
 Weight 21 kg

Individual dimensions

Bent steel wire: Ø 8 and Ø 12 mm

Product numbers and combinations

U11-81 Kaskad table with a diameter of 60 cm and tabletop in 5 mm sheet steel, powder-coated in fine structure paint
 U11-85 Kaskad table with a diameter of 80 cm and MDF-H tabletop for indoor use, powder-coated in fine structure paint
 B11-06 Startup cost for powder coating steel in a color other than standard
 U11-86 Stainless steel fasteners, powder-coated

Append to product number

METAL SURFACE FINISH

Powder coated in fine structure.
 S for black RAL 9005.
 V for white RAL 9010.
 G for yellow RAL 1016.
 C for any color of steel, at an additional cost.

VARIANTS

If nothing is specified after the article number, you get a table top in painted MDF (indoors).
 P for table top in sheet in 5 mm sheet metal (outdoors).
 VC for table top in white Carrara marble (outdoors).

Standard colours

 RAL 9005
 RAL 9010
 RAL 1016

Materials and surface treatments

Carrara Marble white.
 Målad MDF.

Bordsskiva i vit Carrera-marmor, 5 mm platta, eller målad MDF.

Steel

Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.

Electrogalvanized

Electrogalvanizing (also known as zinc plating) provides corrosion protection through the sacrifice of zinc ions. It is created via a zinc coating on the steel using an electric current.

Powder coating

Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.

Assembly and placement

Freestanding

Freestanding product that is placed directly on the ground.

Maintenance

Powdercoated steel

Products that are powder-coated can be touch-up painted with alkyd paint.
