## Korg – New Product! Bar Stool and Table

Design Thomas Bernstrand

The newest addition to the Korg series is the Bar stool and high table, further completing the collection. Sitting at a higher level is increasingly requested in public and outdoor spaces, often suited for work, social gatherings, or events. With this high-seating option, the entire Korg series can be incorporated to create a streamlined and cohesive design, adding both functionality and a confident sense of style.

#### Append to product number

##### METAL SURFACE FINISH

When ordering, specify which of our standard colors you want:

Dark blue/Grey RAL 5008, fine texture.

Black Noir 2200 Sablé, fine texture.

Red/Orange RAL 2002 (matt clear coat), fine texture.

Green RAL 6025, fine texture.

Black RAL 9005, fine texture.

C for any color other than standard, at additional cost.

#### VARIANTS

Korg Bar stool is only available in a attachable option.

#### INSTALLATION TYPE

N for surface mount.

M for in-ground.

#### Standard colours

#### Materials and surface treatments

##### Steel

Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.

##### Electrogalvanized

Electrogalvanizing (also known as zinc plating) provides corrosion protection through the sacrifice of zinc ions. It is created via a zinc coating on the steel using an electric current.

##### Powder coating

Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.

#### Assembly and placement

##### In-ground

Cast in ground.

##### Surface mount

Can be bolted above ground, to the floor or to a cast-in-place foundation. Bolts not included.

#### Maintenance

##### Powdercoated steel

Products that are powder-coated can be touch-up painted with alkyd paint.
