Linnéa Planter

Design Anders Nyquist

Linnéa is characterised by wood panelling and diagonal crossbars. The planter's substantial size is large enough to grow trees in, making it possible to restore plant life to spaces covered in concrete. An inner container made in reinforced plastic protects the wood from water and soil. Linnéa is a favourite of those who appreciate traditional wood craftsmanship and enjoy classic design.

Dimensions and weight

Length: 68 cm
Width: 68 cm
Height: 80 cm
Weight 24 kg

Weight of inner container: 11 kg

Volume: 200 L

Individual dimensions

Wood components: Frame: 55 mm x 55 mm and 55 mm x 42 mm

Wood components: Panel: 18 mm x 68 mm

The inner container is made from reinforced plastic 4 mm thick

Product numbers and combinations

Ö50-29 Linnéa. Grönmålad med kryssdekor.

Hörnstolpar med pyramidtopp.

Ö50-29BT4 Mona bevattningstank, 4lit.

Ö50-29BT10 Mona bevattningstank, 10lit.

Ö50-35 Planteringsinsats, glasfiberarmerad plast, 170lit.

Materials and surface treatments

Pine

Nola's pine is of high quality and comes from sustainable forestry. Pine is an environmentally friendly, domestically produced material. Damaged or untreated pine is quite easily attacked by decomposition processes; therefore, it is particularly important to repair damaged surfaces.

Water-based glaze

Varnishing of wood is done with a water-based varnish. A water-based paint that is kinder to the environment. Under normal use, the paint has a good wear resistance and long durability.

Plastic / Fiberglass

Glass fiber is often used as reinforcement in plastics to increase rigidity by coating a glass fiber fabric with a plastic, usually a polyester, which hardens and binds the glass fiber together.

Assembly and placement

Freestanding

Freestanding product that is placed directly on the ground.

Delivered in parts for assembly on site.

Maintenance

Water-based glazed pine

Products in varnished pine must be maintained regularly with alkyd paint. Maintenance intervals approximately 1 time per year. Damage and cracks should be repaired immediately. Touch-up paints in spray packaging are available in standard colors to order.
