Maza Seat

Design Ove Jonsson & Olle Anderson

Maza is a uniquely versatile public space design. It is a stand-alone seating island that doubles as a means of dividing space. The seat is slightly higher than standard benches, making it comfortable to lean against. Maza is suitable for indoor and outdoor environments, making it a popular choice for multi-purpose spaces such as shopping centres, schools, urban parks and central courtyards.

FEATURES

© Suitable for preschools and playgrounds

Materials and surface treatments

Glass-fibre reinforced plastic.

Plastic / Fiberglass

Glass fiber is often used as reinforcement in plastics to increase rigidity by coating a glass fiber fabric with a plastic, usually a polyester, which hardens and

binds the glass fiber together.

Assembly and placement

Freestanding

Freestanding product that is placed directly on the ground.

Leveras monterad.

Maintenance Maintenance-free but allows cleaning if necessary. Any scratches can be

polished away.
