Pivot Seat and Tabletop

Design Broberg & Ridderstråle

Like a moon orbiting a planet, this ergonomic seat circles around the tabletop above it. Pivot bolts to the ground for stability, making it strong enough to support up to three seats. Pivot's streamlined shape and sleek surfaces are as practical as they are innovative. Easy to clean and maintain, Pivot is an excellent choice for public spaces, both indoors and outside.

Dimensions and weight

Height: 72 cm
 Sitting height: 45/ 52 cm
 Ø: Bordsskiva: Ø 60 cm Sits: Ø 30 cm

Height of seat: 45/52 cm
 Height of table: 72 cm
 Tabletop: Ø60 cm
 Seat: Ø30 cm

C for any color other than standard, starting cost is added.

INSTALLATION TYPE

N for surface mount.

M for in-ground.

Standard colours

 RAL 2010
 BLEU 2700 Sablé YW353F

Materials and surface treatments

Steel

Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.

Electrogalvanized

Electrogalvanizing (also known as zinc plating) provides corrosion protection through the sacrifice of zinc ions. It is created via a zinc coating on the steel using an electric current.

Powder coating

Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.

Assembly and placement

In-ground

Cast in ground.

Surface mount

Can be bolted above ground, to the floor or to a cast-in-place foundation. Bolts not included.

Simple assembly is required.

Maintenance

Powdercoated steel

Products that are powder-coated can be touch-up painted with alkyd paint.

Character

This ergonomic seat circles around the tabletop it is paired with. By combining the seat and table in a single expression. Strong enough to support up to three seats.

Designers

Broberg & Ridderstråle

Stockholm based Broberg & Ridderstråle Design & Architecture is founded and run by Mats Broberg and Johan Ridderstråle. The duo met at the University College of Arts, Crafts and Design (Konstfack) where they both studied furniture and interior design. Today they work within the fields of architecture and design. Their design method is based on the traditional craft, where they often gather inspiration from their daily lives only to then add a new twist to the design that lifts the product to a new level. Broberg & Ridderstråle have throughout the years designed numerous products and furniture series for Nola.
