Strikt Litterbin

Design Leena Landgren

Taking the cylinder as the starting point, the designer transformed it into this sleek litterbin for indoor use. Strikt is crafted in proportions that remain true to a cylindrical shape, while cleverly concealing the lid and liner inside. Free of embellishments and decorative elements, Strikt's streamlined shape brings minimalist design to public space.

METAL SURFACE FINISH

C for stand any color other than standard, starting cost is added.

Standard colours

Materials and surface treatments

Steel

Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.

Powder coating

Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.

Assembly and placement

Freestanding

Freestanding product that is placed directly on the ground.

Fully assembled.

Maintenance

Powdercoated steel

Products that are powder-coated can be touch-up painted with alkyd paint.
