Wait – New Product!

Furniture Group

Design White Arkitekter

Wait is a modular seating system designed for public spaces where durability and flexibility are key. Available as standalone armchairs, two- and three-seater sofas, or extendable configurations, the system adapts to various environments and needs.

Materials and surface treatments	<p>Stoppad sits, inklusive klädning, exklusive tyg.</p> <p>Powder coated steel.</p> <p>Upholstered seat on saddle ground with optional fabric. Kvadrat Jaali 461.</p> <p>Steel</p> <p>Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.</p> <p>Electrogalvanized</p> <p>Electrogalvanizing (also known as zinc plating) provides corrosion protection through the sacrifice of zinc ions. It is created via a zinc coating on the steel using an electric current.</p> <p>Powder coating</p> <p>Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.</p>
Assembly and placement	<p>Freestanding</p> <p>Freestanding product that is placed directly on the ground.</p> <p>Seat and frame are delivered separately and assembled in place.</p>
Maintenance	<p>Damaged steel details are re-painted with alkyd paint if needed. Upholstery removable.</p>

Powdercoated steel

Products that are powder-coated can be touch-up painted with alkyd paint.

Versions

Available for indoor use with one-seater, two-seater or three-seater with upholstered seat in fabric, and for outdoor environments such as three-seater seat in wood.

Character

Backed bench developed for waiting environments with a clear environmental focus and circular thinking in the design process.

Designers
