Wait – New Product! Furniture Group

Design White Arkitekter

Wait is a modular seating system designed for public spaces where durability and flexibility are key. Available as standalone armchairs, two- and three-seater sofas, or extendable configurations, the system adapts to various environments and needs.

Append to product number

METAL SURFACE FINISH

C for any color on steel, at an additional cost.

Standard colours

Materials and surface treatments

Stoppad sits, inklusive klädning, exklusive tyg.

Powder coated steel.

Upholstered seat on saddle ground with optional fabric. Kvadrat Jaali 461.

Steel

Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.

Electrogalvanized

Electrogalvanizing (also known as zinc plating) provides corrosion protection through the sacrifice of zinc ions. It is created via a zinc coating on the steel using an electric current.

Powder coating

Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.

Assembly and placement

Freestanding

Freestanding product that is placed directly on the ground.

Seat and frame are delivered separately and assembled in place.

Maintenance

Damaged steel details are re-painted with alkyd paint if needed. Upholstery removable.

Powdercoated steel

Products that are powder-coated can be touch-up painted with alkyd paint.

Read more in our general maintenance advice at nola.se/en/care-and-maintenance

Versions

Available for indoor use with one-seater, two-seater or three-seater with upholstered seat in fabric, and for outdoor environments such as three-seater seat in wood.

Character

Backed bench developed for waiting environments with a clear environmental focus and circular thinking in the design process.
