## Wave Bench

Design Gunilla Hedlund

The award-winning Wave bench signals a new direction for outdoor furniture, revealing how much impact sculptural shapes can have in public space. Wave's form is created by ribbons of steel that appear to capture fluid movements in their curves. The bench's unique design provides a comfortable surface that enables water to run off, drying quickly after rainy weather.

<b>Dimensions and weight</b>	<p>Length: 132 cm Width: 41 cm Height: 53 cm Weight 61 kg</p> <p><b>Individual dimensions</b> The steel pieces in the frame: 40 mm x 12 mm The base: 410 mm x 80 mm x 39 mm</p>
<b>Product numbers and combinations</b>	<p><b>U22-16</b> Wave bench 2 seated <b>U22-18</b> Fastening iron 2 pieces <b>B11-06</b> Startup cost for powder coating steel in a color other than standard</p> <p><b>Append to product number</b></p> <p>METAL SURFACE FINISH</p> <p>C for any color other than standard, starting cost is added.</p> <p>INSTALLATION TYPE</p> <p>N for surface mount.</p>
<b>Standard colours</b>	<div data-bbox="555 945 587 976" data-label="Image"></div> Gris 2900 Sablé
<b>Materials and surface treatments</b>	<p><b>Steel</b> Nola uses high-quality steel with good strength in our products. Steel rusts if left untreated and must therefore be surface treated.</p> <p><b>Recycled sand cast aluminium</b> Aluminium recycled from scrap, hand cast in sand moulds. The energy consumption when producing recycled aluminium is about 5% of that used when producing virgin aluminium.</p> <p><b>Electrogalvanized</b> Electrogalvanizing (also known as zinc plating) provides corrosion protection through the sacrifice of zinc ions. It is created via a zinc coating on the steel using an electric current.</p> <p><b>Powder coating</b> Powder coating is a coating that is applied as a free-flowing, dry powder. Unlike conventional liquid paint, powder coating is usually applied electrostatically and then cured under heat or with ultraviolet light. The result is an even, hard-wearing coloured surface with the desired gloss level.</p>
<b>Assembly and placement</b>	<p><b>Freestanding</b> Freestanding product that is placed directly on the ground.</p> <p><b>Surface mount</b> Can be bolted above ground, to the floor or to a cast-in-place foundation. Bolts not included.</p> <p>Assembled.</p>

## Maintenance

### Powdercoated steel

Products that are powder-coated can be touch-up painted with alkyd paint.

### Sand cast aluminium

Maintenance on aluminium is not normally needed, but make sure to wash and keep the material clean. Untreated aluminium develops a matte surface over time.

### Powder coated Aluminium

Products that are powder-coated can be touch-up painted with alkyd paint if necessary.
